

LEADERSHIP *Unleashed*® is an award-winning, leadership program designed to create, equip, and engage leaders (and emerging leaders) in business, non-profit and government sectors. Participants in this proven and very popular curriculum come together from diverse backgrounds, experience, and perspectives. They meet once a month to develop essential business and community leadership skills while learning about themselves, each other, areas of interest, and how to make a difference, where they live. Graduates form lasting connections with each other, create valuable links to organizations, and join a powerful group of individuals making a difference locally.

The year begins with the Leadership Retreat where participants lay a solid foundation for effective teamwork and exemplary leadership. They also begin the process of identifying their Affinity Group where they will focus their energy and develop a level of expertise in their chosen interest. Affinity Groups will create a service project designed to benefit a non-profit in a strategic way.

From the retreat, participants will embark on a leadership journey that not only develops core leadership skills, but provides access and insight into their communities in ways they may not have had before.

The year ends with the Leadership Advance where participants will chart their own unique course in community leadership and reflect on their journey in the program. The day and year will end in a spirit of celebration as graduates, surrounded by family and friends are formally presented to their communities.

The LEADERSHIP *Unleashed*® program is comprised of two parts: classroom learning (leadership skills) and field visits.

LEADERSHIP SKILLS

Participants will receive instruction on essential leadership skills, creating a solid foundation for effective business and community leadership.

Additional Commitments

Affinity Group Service Project

Each affinity group will select a service project designed to have a positive, strategic impact in the community. The project will require an additional one-two hours per month, culminating in the execution (no more than one day). (This is an approximation. Less time is required earlier, more later.)

Optional

Community Participation Activities

Periodically opportunities will arise that team members may want to participate in. They generally will require one - four hours per event.

Participant Reviews

"I highly recommend this program to all leaders and emerging leaders. The team and leadership skills you will learn add value to every aspect of your life." – **Amy Cervantes, Kaiser Permanente Medical Group**

"I've been through a lot of leadership training in the Air Force. This program is superior in many ways and presents facets of leadership that have been proven to be invaluable." – **Lt. Col. Dan DeVoe, USAF**

"Thank you for your brilliance and skill. You've made such a difference in our community by helping so many of us find our leadership voice and direction." – **Christie Speck, Solano Community College**

"You are an amazing leader. I am truly grateful to have had the opportunity of being a graduate of your program."

– **Teresa Courtemanche, Matt Garcia Foundation**

"I have gotten to really understand myself not just from a management and leadership perspective but personally as well. This program has truly inspired me to take an active leadership role in the community and spurred me to volunteer in my community."

– **Betsy Carrabello, Sutter Regional Medical Foundation**

"This is the greatest community/business learning journey I have been on in my life so far." – **Monte Hoover, Gillespie's Abbey Carpet**

Value to Employers

In addition to essential business and community leadership skills training, participants will receive valuable coaching on how and when to implement those skills. The knowledge graduates obtain will serve as a solid foundation for effective leadership in all applications: non-profit, government, and business, wherever they work and live.

“Companies that place a high priority on exploring innovative and powerful ways to engage employees, including the unique professional development opportunities that volunteerism provides, may reap substantial rewards in the global race for talent.” – Jeff Schwartz, US Leader and Global Co-Leader, Talent Services, Deloitte Consulting LLP

Value to Participants

Graduates of the program will learn important self-awareness skills and gain a deeper understanding of the behavior of others. They are given tools to impact relationships positively. They form long-lasting friendships that are rare in today’s rapid-paced world. Graduates indicate that the program far exceeded their expectations.

Value to Community

This program has been specifically designed to create a pathway for graduates to effectively lead and serve on non-profit boards and government commissions. Graduates are equipped with practical skills and knowledge to make ethical, strategic, ongoing contributions wherever their interests lead.

Additional Information

Nominations and Applicants are sought from every sector and background in Solano County. Applications are available by sending an email to: customerservice@followyourcompass.com

AFFINITY GROUP FIELD VISITS

Step out into our communities and discover the segment of society that you are compelled to contribute to. Get a first-hand look at the non-profits and the people who are at the helm and in service to making a positive difference.

Food and Hunger

Issues surrounding hunger and food insecurity exist and the consequences are especially harmful to children. Learn what previous graduates have done and what you can do to impact this issue.

Housing & Homelessness

Homelessness can happen to anyone. There are many innovative, approaches to impacting this seemingly unsolvable issue.

Land, Water & Environment

Unique open spaces, farm land and waterways are worthy of protecting. Yet finding balance between economic growth and environmental health is an important issue. Learn from graduates what works.

Education

Concerned citizens have created some impactful programs to break the cycle of early drop-out rates and developed paths for students to succeed.

Children

Healthy communities value children. Learn about the many successful programs and organizations that are having a positive impact on our youth.

Government

The information and advice that commissions provide about community needs, concerns, and opinions can have a profound impact and lead to improved services for all.

Health

Health care is an essential element to a thriving community. Understand what the big issues and how we fare health-wise.

Animals

Furry friends can improve health and quality of life for many. Finding the balance of responsibility for the animals and the community is a worthy undertaking.

More

Participants are not limited to the above but have the freedom to explore any field that is of interest to them.
